

PTFE Fabric

Technical Datasheet

SW-10

General Information

Product Group	Silicone Fabric
Industry Segments	Packaging
Main Product Features	

Fabric Construction

Colour	White
Substrate	Fiberglass
Surface Coating	Silicone
Food Grade	

Technical Data

Maximum Width	1,000 mm	40 in
Nominal Thickness	0.25 mm	10 mil
Nominal Weight	342 g/m ²	10 oz/yd ²
PTFE Content		
Operating Temperature		

Applications

High demanding environments

All values shown herein are typical and are not to be considered specifications. In all instances, the user shall determine the suitability of any Green Belting Industries Ltd. product for any given application. Should more information be required, please contact us at info@greenbelting.com.
