

Quick delivery on OEM specifications;  
ship from stock

Minimize downtime; increase productivity

Improve supply chain performance;  
reduce raw material waste

Lower unplanned stoppages; reduce emergency maintenance

## BAKING PRODUCTS

Producing higher quality foods for commercial bakeries

Our PTFE coated belts help flat bread manufacturers produce high quality tortillas by reducing downtime and maximizing performance unlike lower quality belts. For more information about Green Belting Industries PTFE coated belts, please contact your Green Belting Industries representative or call our customer service department.
