

Quick delivery; ship from stock

Minimize downtime; prevent buildup on elements

Maximize seal strength; improve packaging integrity

Lower cost of ownership; reduce maintenance costs

HOUSEHOLD PAPER PRODUCTS

Improving packaging for high quality paper products

Our PTFE coated belts help paper and tissue manufacturers produce high quality household paper products by reducing unscheduled downtime and increasing performance unlike lower quality belts. For more information about Green Belting Industries PTFE coated belts, please contact your Green Belting Industries representative or call our customer service department.
