

Faster masking times; less prep work

Maximum adhesive strength;
low residual tack and cleanup

Long shelf life; reduce waste

Traceability; lot code and date of manufacturing

MEDICAL DEVICES

Manufacturers of medical devices for rehabilitation

Our thermal spray tapes help biomedical device manufacturers mask their implants minimizing masking times and costs unlike conventional products. For more information about Green Belting Industries thermal spray tapes, please contact your Green Belting Industries representative or call our customer service department.

Animal derivatives, phthalates and natural rubber compliance statement available upon request.
